

I am writing as a United States citizen, as a registered voter, and as an FCC license holder. Let it be known that I and many others in the country will not allow you trample on America's civil rights, especially during a sensitive time as this when you hope others are too distracted, by restricting access to the media with your attempted removal of the cross-ownership ban. This is America, not Taliban-controlled Afghanistan or some other oppressive country that monopolizes media access.
